

Anh Q. Chau

qchau@wisc.edu | www.linkedin.com/in/anhqchau | +1 (608) 896 0848

EDUCATION

University of Wisconsin–Madison

Wisconsin, United States

Degree: Bachelor of Arts

Class of 2028

Triple Majors: Economics, Information Science, & Data Science | Honors in Liberal Arts

PROFESSIONAL EXPERIENCE

VinaCapital

Ho Chi Minh City, Vietnam

Digital Solutions Intern

June 2026 – August 2026

- Scoped an undefined business ask into a testable product problem, fixing success metrics and acceptance thresholds up front.
- Built a monthly redemption forecast on 300K+ transactions and 49K events, translating user needs into model requirements.
- Measured a 94.4% signal ceiling by binomial attribution, redirecting the roadmap from model tuning to new data acquisition.
- Shipped a tested, deterministic codebase and communicated findings, tradeoffs, and data asks to non-technical directors.

Rajah & Tann LCT Lawyers

Ho Chi Minh City, Vietnam

Innovation Intern

March 2026 – Present

- Run discovery on the managing partner's drafting workflow, turning mapped steps, handoffs, and gaps into user stories.
- Design and test an AI agent for bilingual Vietnamese-English contract drafting built on structured prompt patterns and evals.
- Set acceptance criteria, evaluation measures, and confidentiality guardrails a responsible-AI pilot must clear for adoption.

Grant Thornton Vietnam

Ho Chi Minh City, Vietnam

Advisory Services Intern

July 2025 – August 2025

- Partnered with senior associates and cross-functional client teams, building executive-level reports for advisory engagements.
- Defined and executed data collection, market research, and zero-defect analysis required for an assigned work stream.

PROJECTS & OUTSIDE EXPERIENCE

Spotify Case Competition — Viet Career Guide Think-A-Thon

Remote

Top 6 Nationally; AI Innovation Award

2026

- Diagnosed conversion friction from a 74-response user survey plus Spotify's disclosed engineering blog and SEC filings.
- Designed a two-stage uplift and expected-value AI decision engine, specifying data flows and model outputs for engineering.
- Built a phased rollout roadmap gated on control-group KPIs, sizing impact at €253M NPV and 290% ROI over five years.

Church Mutual Insurance Company Case Competition

Wisconsin, United States

Participant

February 2026

- Engineered an end-to-end analytics pipeline converting 1,500+ customer records into a \$1.78M opportunity at 124% ROI.
- Applied propensity score matching to isolate causal drivers, then turned results into prioritized product recommendations.

LEADERSHIP & INVOLVEMENT

Women in Business Technology

Wisconsin, United States

Vice President

January 2026 – Present

- Own a technology and AI case competition for 50+ students end to end, from scoping and timeline to recruiting four judges.
- Coordinate professional development workshops and industry panels for 80+ club members across technology and business.
- Lead the annual Chicago Trek, coordinating office visits and networking sessions at major consulting and technology firms.

Badger Consulting

Wisconsin, United States

Selected Analyst

September 2025 – Present

- Screen and evaluate 15+ prospective B2B clients through market sizing, industry research, and competitor benchmarking.
- Develop a data-driven outreach strategy that expanded the partnership pipeline; recognized as the team's top contributor.

SKILLS, CERTIFICATES, AND INTERESTS

Product: Roadmapping, prioritization, user stories, experiment design, requirements gathering, stakeholder communication.

Technical: Python (pandas, NumPy, SciPy), R, SQL, Microsoft Excel, data pipelines.

AI & Automation: LLM prompt engineering, AI workflow design (n8n, Gemini), model evaluation, responsible AI practices.

Analytics & Research: Causal inference, A/B and control-group design, forecasting and backtesting, KPI definition.

Languages & Interests: Vietnamese (native), English (fluent); oil painting.
